Profile

Organized, detail-oriented, and creative **UI/UX Designer** with a **BSc in Computer Science** and a passion for designing user-centric digital experiences. Quick learner and top performer with strong analytical abilities and problem-solving skills. Excited to contribute innovative design solutions that enhance user engagement and business success.

Projects

➤ **React Shopping Website**

Developed a dynamic and responsive e-commerce website using React.js, integrating features such as product listing, search and filter functionality, shopping cart, and secure checkout. Utilized React Router for seamless navigation and state management with Redux (or Context API). Implemented API integration for product data and payment processing. Ensured a user-friendly UI/UX with Tailwind CSS (or Material UI) for a modern look.

➤ **JavaScript Shopping Website**

Developed a fully functional shopping website using JavaScript, HTML, and CSS. Implemented key features such as product listing, search and filtering, shopping cart, and checkout functionality. Utilized DOM manipulation for dynamic content updates and local storage for cart persistence. Integrated APIs for product data and payment processing. Designed a responsive and user-friendly interface for an optimal shopping experience.

➤ **Explore Design Website**

Created a visually appealing and responsive design exploration website using HTML and CSS. Focused on clean UI/UX principles, incorporating modern layouts, animations, and interactive elements. Utilized CSS Flexbox and Grid for structured design, along with transitions and hover effects to enhance user engagement. Ensured cross-browser compatibility and mobile responsiveness for an optimal viewing experience.

Skills

UI/UX Design Skills

- User research, personas & journey mapping
- Wireframing
- Interaction design

Front-End Tools & Technologies

- Design & Prototyping: Figma, Adobe XD
